Portfolio: <https://amitingole-git.github.io/>

PROFESSIONAL SUMMARY

Principal-level technology leader with 20+ years of experience architecting and delivering enterprise-scale cloud contact center, conversational AI, and customer experience transformation solutions across healthcare, financial services, and telecom domains. Proven expertise leading modernization initiatives involving CCaaS/UCaaS platforms, AI-powered automation, cloud-native architectures, and enterprise integration ecosystems.

Recognized for combining deep technical architecture expertise with strategic business alignment to deliver scalable, secure, and measurable customer experience outcomes. Extensive experience designing enterprise-grade solutions across AWS Connect, Five9, Twilio Flex, Cisco CVP, Salesforce Service Cloud Voice, and AI-driven speech analytics platforms.

Strong track record leading global engineering teams, defining target-state architectures, building reusable enterprise frameworks, and driving modernization roadmaps focused on operational efficiency, compliance, observability, automation, and customer satisfaction.

CORE COMPETENCIES

- Enterprise Solution Architecture
- Contact Center Modernization
- Cloud Migration & Platform Modernization
- Omnichannel Customer Experience
- AWS Connect, Five9, Twilio Flex, Cisco CVP
- Conversational AI & Speech Analytics
- Microservices & Serverless Architecture
- Event-Driven Systems & API-First Design
- Kubernetes, Docker & DevOps
- HIPAA, PCI-DSS, FCC Compliance
- Zero Trust Architecture (ZTNA)
- Executive Stakeholder Management

PROFESSIONAL EXPERIENCE

AbbVie | Senior Technology Engineer / Enterprise Contact Center Architect

Sept 2022 – Present | Remote, USA

- Architected enterprise-scale AI-powered customer engagement and automation solutions leveraging Five9, Twilio, Salesforce, and AWS-based cloud-native services.
- Led enterprise-wide implementation of CallMiner speech analytics capabilities, reducing manual QA effort by 85% while improving operational visibility and compliance monitoring.
- Designed and deployed AI-driven call summarization workflows that reduced After-Call Work (ACW) time from 2 minutes to 30 seconds.
- Defined scalable omnichannel architecture patterns for IVR, SMS automation, and intelligent routing systems.
- Implemented distributed microservices and event-driven architectures improving resiliency and scalability.
- Directed compliance-focused architecture initiatives aligned with HIPAA, PCI-DSS, and FCC requirements.
- Established enterprise observability standards using structured logging, metrics, tracing, dashboards, and monitoring frameworks.
- Mentored engineering teams across architecture standards, cloud-native best practices, and DevOps adoption.

Synechron INC | Sr. Specialist – Technology / Lead Solutions Architect

Aug 2015 – Sept 2022 | United States

- Led AWS cloud migration and modernization initiatives reducing infrastructure and operational costs by 25%.
- Designed enterprise-grade intelligent routing and omnichannel customer engagement solutions using Twilio Flex and Cisco CVP.
- Architected scalable serverless analytics and automation platforms leveraging AWS Lambda and Node.js.
- Directed Agile transformation initiatives and DevOps modernization efforts across globally distributed engineering teams.
- Defined reusable architecture frameworks and implementation standards improving delivery consistency.

Synechron India | Assistant Manager – Software / Technical Lead Architect

May 2009 – Aug 2015 | Pune, India

- Designed and deployed multi-tenant IVR and customer engagement solutions using Cisco Voice Portal.
- Implemented CI/CD pipelines reducing release cycles and improving delivery reliability by 40%.
- Mentored engineering teams on cloud integration and distributed application architecture.

Amedeo Software Pvt. Ltd. | Senior Software Developer

Aug 2004 – Apr 2009 | Mumbai, India

- Developed enterprise IVR and voice portal solutions using Java, VoiceXML, and Genesys Voice Portal technologies.
- Supported full SDLC activities including design, development, testing, deployment, and production support.

KEY ACHIEVEMENTS

- Delivered 50+ enterprise contact center and customer experience transformation initiatives.
- Reduced manual QA effort by 85% through enterprise AI speech analytics implementation.
- Improved agent productivity by reducing After-Call Work from 2 minutes to 30 seconds.
- Reduced cloud infrastructure costs by 25% through AWS modernization initiatives.

TECHNICAL EXPERTISE

Platforms & Cloud: AWS, Amazon Connect, Five9, Twilio Flex, Cisco CVP, Genesys, Avaya, Salesforce Service Cloud Voice

Programming & Frameworks: Java, Node.js, Python, JavaScript, React, VoiceXML

Cloud-Native Technologies: Microservices, Serverless, Kubernetes, Docker, API Gateway, Kafka

DevOps & Observability: Jenkins, Git, CI/CD, Splunk, Monitoring, Logging, Metrics, Tracing

Databases: MySQL, MS SQL Server, DynamoDB, Cassandra, MongoDB

Security & Compliance: HIPAA, PCI-DSS, FCC, Zero Trust, MFA, Encryption

CERTIFICATIONS

- Five9 Contact Center Certification
- ITIL Certified
- AI Generalist (Foundational)
- Introduction to AWS
- Introduction to Google Cloud Platform
- Introduction to Conversational AI

EDUCATION

Bachelor of Engineering – Computer Science

Amravati University, India

2000 – 2004
